

Notice

The recent ballot and return envelope were printed using the incorrect percentage for your unit. This only affected the printing and not the voter tallying software. A task force met on Saturday, April 30th and conducted a line-by-line review of the voting percentages (i.e. percentages of common interest), and through this audit, it was verified that all ownership percentages align with what is stated in the First Amendment of the Offering Plan. We apologize for this error. Votes are tallied under the supervision of our Accountant and our Attorney during the Annual Meeting, using an Excel spreadsheet. Please vote by using the ballot you recently received. If you would like to review your ownership percentage, please stop by the Office.
