

Notice

Please be advised that Edgemont has been identified as a possible location by a production company for an upcoming movie. A scouting crew for the film makers has made several visits to different locations in our complex. We are currently reviewing with the filming company their proposal in order to understand the full scope of what would be required from Edgemont; as well as what compensation would be offered to Edgemont and its residents. Any updates will be given at next Tuesday's meeting.
